

Descrizione

The flashing light FDEF102 with a refined design enriches the range of conventional Teledata devices. Maximum performance managed by a microprocessor, high power LED, 0.5Hz and 1Hz option, deep base that can be locked on the flashing light body, fire-resistant container.

Technical specifications

Power supply voltage	24V DC
Absorption in alarm @24Vdc 0,5Hz	<20mA
Absorption in alarm @24Vdc 1Hz	<40mA
Flashing frequency	0,5Hz o 1Hz
Flashing colour	Red
Coverage	w-2,4-7,5(13,5m)
Humidity	5% -95%
Working Temperature	-10 °C +55 °C
Container material	ABS
Protection class	IP65
Certification	EN54-23
